EDUCATION

Industrial Univ. of Ho Chi Minh City

Software Engineering
2022 – 2026
GPA: 2.5 / 4.0

TECHNICAL SKILLS

ReactJS Components · Props · State · Hooks · Router

TypeScript Basic types · Interfaces · API response typing

Node.js REST API · JWT · Middleware · Role-based Access

Database MongoDB · SQL · CRUD · Schema / Model

Mobile React Native · Navigation · API integration · Emulator

Tools Git · GitHub · Postman · VS Code · npm

LANGUAGES

English VSTEP B1

Vietnamese Native

PERSONAL INFO

Hometown: Quang Ngai
Based in: Ho Chi Minh City

OBJECTIVE

Seeking an internship opportunity to apply ReactJS, Node.js and database knowledge in real projects, while improving coding skills, teamwork and product development mindset.

PROJECTS

E-commerce Shop ReactJS

Product listing, cart management and basic user interactions.
github.com/username/shop-app

Travel App React Native

Mobile travel app with navigation and API integration.
github.com/username/travel-app

ToDoList TypeScript

Task manager app, practicing types, state and data handling.
github.com/username/todo-ts

Twitter Social — API Node.js · MongoDB · JWT

Social network REST API with JWT authentication and authorization.
github.com/username/twitter-api

HANDS-ON EXPERIENCE

- Built web UIs with ReactJS and connected to REST APIs.
- Developed Node.js backend with JWT authentication and role-based access.
- Worked with MongoDB and SQL for data storage and CRUD operations.
- Tested APIs with Postman; managed source code with Git / GitHub.
- Built and tested mobile app with React Native on Android Emulator.

STRENGTHS

Self-learning · Teamwork · Problem solving · Detail-oriented · Fast adaptability
